solice have been called for and the extract points. Extract points are prepared in many instances to take the reins themselves when they leave the barns. Many cases of violence have already been reported. Though the Executive Board of the Beamster's International Brotherhood meets to-day in Indianapolis to consider the strike there is faint hope of a settlement. The bosses declare they will take the matter to the courts and fight it to a finish before they give in to the strikes who they claim have broken their contracts and agreements.

Had Made an Agreement.

The present strike is an aftermath of the strike for \$12 a week, when Union No. 563, the uptown branch, they became dissatisfied and demanded the same terms. They were reminded of their agreement. They is goored it, claiming that the owners had not lived up the terms themselves. There was a deadlock and a strike.

There are about five hundred and elighty men now out who do all the same terms. They know the first point of the same terms themselves. There was a deadlock and a strike error demands, but the sixty big connections and the proposed in the hundred and the proposed in the hundred and the proposed in the same terms themselves. There was a deadlock and a strike error demands, but the sixty big connections and the proposed in the hundred and the proposed in the same terms themselves. There was a deadlock and a strike error of the same terms themselves. There was a deadlock and a strike error of the proposed in the hundred and the proposed in the same terms themselves. #### RHEUMATISI TROUBLESOME PAINS AND ACHES

While Rheumatism is usually worse in Winter because of the cold and While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour, acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers; the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severer symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in

no sense curative; because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism; it goes down into the blood and attacks the disease PURELY VEGETABLE, at its head, and by neutralizing the acid
